*The laboratory applies a flexible approach to the scope of accreditation.*

*The current list of activities carried out within the flexible scope is publicly available on the laboratory's website [Scope of activities of the ČMI Testing Laboratory - update of standards and classification by FRA | Czech Metrology Institute \(cmi.cz\)](#) in the form „List of activities within the flexible scope of accreditation“.*

*The laboratory provides opinions and interprets test results.*

*The laboratory is qualified to carry out independent sampling.*

*Detailed information on activities within the scope of accreditation (determined analytes/ subject of testing / source literature) is given in the section „Specification of the scope of accreditation“.*

**1. Regional Inspectorate Praha**

**Tests:**

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
1	Determination of the composition of gas by gas chromatography with TCD and FID and calculation of its physico-chemical parameters (gross calorific value, net calorific value, Wobbe index, compactness, density)	114-MP-C003, chap. 5.2, 5.4.1, 5.5 (ČSN EN ISO 6974-4; ČSN EN ISO 6976)	Natural gas	A, B, D
2	Determination of sulphur constituents by gas chromatography with SCD	114-MP-C003, chap. 5.3 (ČSN EN ISO 19739)	Gaseous mixtures/natural gas	A, B, D
3	Determination of gas mixture composition by gas chromatography with TCD and FID	114-MP-C003, chap. 5.4.2 (ČSN EN ISO 6974-4)	Binary mixture of CO, CO <sub>2</sub> , O <sub>2</sub> or propane in nitrogen	A, B, D
4	Determination of ethanol content by gas chromatography with FID	114-MP-C006, chap. 5.4 (ČSN ISO 8573-6)	Gaseous mixture of ethanol in nitrogen	A, B, D
5	Measurement of thermal conductivity and thermal resistance	112-MP-C007 (ISO 8302; ČSN EN 12667)	Plate materials with a thickness of (4.7 to 34) mm	A, B, D
6.1	Determination of the degree of resistance – test of resistance to temperature	135-MP-C037, chap. 6 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D

**The Appendix is an integral part of  
Certificate of Accreditation No. 677/2023 of 19/12/2023**

**Accredited body according to ČSN EN ISO/IEC 17025:2018:**

**Český metrologický institut**  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
6.2	Determination of the degree of resistance – test of resistance to external pressure	135-MP- C037, chap. 7 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D
6.3	Determination of the degree of resistance – test of resistance to impact	135-MP- C037, chap. 9.1 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D
6.4	Determination of the degree of resistance – test of resistance to vibrations	135-MP- C037, chap. 10 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D
6.5	Determination of the degree of resistance – test of resistance to penetration	135-MP- C037, chap. 9.2 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D
6.6	Determination of the degree of resistance – test of tightness	135-MP- C037, chap. 11 (ISO 2919; ISO 9978)	Sealed radionuclide source	A, B, D

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

**Specification of the scope of accreditation:**

Ordinal test number	Detailed information on activities within the scope of accreditation (determined analytes)
1	hydrocarbons C <sub>1</sub> – C <sub>6</sub> , nitrogen, carbon dioxide
2	dimethylsulfide (DMS), terbutylmerkaptan (TBM), tetrahydrothiophene (THT);

Ordinal test number	Detailed information on activities within the scope of accreditation (subject of testing)
2	gaseous mixture based on methane or nitrogen

**The Appendix is an integral part of  
Certificate of Accreditation No. 677/2023 of 19/12/2023**

**Accredited body according to ČSN EN ISO/IEC 17025:2018:**

**Český metrologický institut**  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

**2. Regional Inspectorate Brno**

**Tests:**

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
1	Measurement of pH reference materials on primary standard	616-MP-C007	RM/CRM – aqueous solutions	-
2	Measurement of pH reference materials on secondary standard	616-MP-C008	RM/CRM – aqueous solutions	-
3	Measurement of electrolytic conductivity of solutions on primary standard	616-MP-C010	RM/CRM – aqueous solutions	-
4	Measurement of electrolytic conductivity of solutions on secondary standard	616-MP-C011	RM/CRM – aqueous solutions	-
5	Measurement of active and reactive energy	611-MP-C150 (ČSN EN 50470-1; ČSN EN 50470-3; ČSN EN 62052-11; ČSN EN 62053-21; ČSN EN 62053-22; ČSN EN 62053-23; ČSN EN 62053-24; OIML R 46)	Electricity meters	A, B, D
6*	Non-destructive characterization of internal structure and length by X-ray PC tomography	614-MP-C107	Industrial samples and products	A, B, D
7	Testing of metrology software in measuring instruments	853-MP-C001 (WELMEC 7.2; OIML D 31; OIML R 49; OIML R 117; OIML R 137; OIML R 139; EN 45501, Annex E, G)	Metrology software	A, B, D
8.1	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C301 (OIML R 76; EN 45501)	Scales with non-automatic operation	A, B, D
8.2	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C307 (OIML R 51; OIML R 61; OIML R 134)	Scales with automatic operation	A, B, D
9*	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C302 (OIML R 49; ISO 4064-2)	Water meters	A, B, D

**The Appendix is an integral part of  
Certificate of Accreditation No. 677/2023 of 19/12/2023**

**Accredited body according to ČSN EN ISO/IEC 17025:2018:**

**Český metrologický institut**  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
10*	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C306; 050-MP-C314; 050-MP-C317; 615-MP-A002 (OIML R 139; OIML R 117)	Measuring systems	A, B, D
11	Tests of the accuracy and precision of measuring instruments under specified conditions	615-MP-A001 (OIML R85)	Automatic level gauges	A, B, D
12	EMC Tests	OIML R 49; ISO 4064-2; ČSN EN 61000-2-1; ČSN EN 61000-2-2; ČSN EN 61000-4-1; ČSN EN 61000-4-2; ČSN EN 61000-4-3; ČSN EN 61000-4-4; ČSN EN 61000-4-5; ČSN EN 61000-4-6; ČSN EN 61000-4-11; ČSN EN 61000-6-1; ČSN EN 61000-6-2	Water meters	A, B, D
13	Tests of the accuracy and precision of measuring instruments under specified conditions	614-MP-C030 (OIML R 129-2)	Multidimensional gauges	A, B, D

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

**Specification of the scope of accreditation:**

Ordinal test number	Detailed information on activities within the scope of accreditation (subject of testing)
7	Measuring software for scales and add-on modules, water meters, gas meters and calculators, electrical energy meters, heat meters, measuring systems for liquids other than water, dispensers, taximeters, dimensional gauges

**The Appendix is an integral part of  
Certificate of Accreditation No. 677/2023 of 19/12/2023**

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
21	Measurement of radiated spurious emissions of the receiver	ETSI EN 300 086, art. 8.8.3; ETSI EN 300 113, art. 8.10.3; ETSI EN 300 433, art. 8.4; ETSI EN 300 220-1, art. 5.9; ETSI EN 300 296, art. 8.2; ETSI EN 300 330, art. 6.3.1; ETSI EN 300 422-1, art. 9.1.3, 9.1.4; ETSI EN 300 422-2, art. 9.1.3, 9.1.4; ETSI EN 300 422-3, art. 9.1.3, 9.1.4; ETSI EN 300 454-1, art. 9.1.3, 9.1.4; ETSI EN 301 357, art. 9.2.3, 9.2.4; ETSI EN 302 208, art 5.7.2; ETSI EN 302 291-1, art. 8.2.2	Equipment for fixed and land mobile service	A, B, D
22	Measurement of modulation bandwidth for wideband equipment	ETSI EN 300 220-1, art. 5.6; ETSI EN 300 330, art. 6.2.2, 6.2.3; ETSI EN 302 608, art. 6.1.1, 6.1.3; ETSI EN 303 213-5-2, art. 5.3.3	Equipment for fixed and land mobile service	A, B, D
23	Measurement of error behaviour at high input levels	ETSI EN 300 113, art. 7.3	Equipment for fixed and land mobile service	A, B, D
24	Measurement of channel bandwidth	ETSI EN 300 422-1, art. 8.3; ETSI EN 300 422-2, art. 8.3; ETSI EN 300 422-3, art. 8.3; ETSI EN 300 454-1, art. 8.3; ETSI EN 301 357, art. 8.6; ETSI EN 302 208, art. 5.5.5	Equipment for fixed and land mobile service	A, B, D
25	Measurement of out of band gain	ETSI EN 300 609-4, art. 5.3.4	Equipment for fixed and land mobile service	A, B, D
26	Measurement of frequency stability under low voltage conditions	ETSI EN 300 220-1, art. 5.12; ETSI EN 302 208, art. 5.5.2	Equipment for fixed and land mobile service	A, B, D
27	Measurement of parameters of transmitter in the LPD range II	ETSI EN 301 357, art. 8.3	Equipment for fixed and land mobile service	A, B, D
28	Measurement of LBT threshold and transmitter max on-time	ETSI EN 300 220-1, art. 5.21.2; ETSI EN 302 208, art. 5.5.7; ETSI EN 300 440, art. 4.4.2	Equipment for fixed and land mobile service	A, B, D
29	Measurement of spurious emissions	ETSI EN 302 017, art. 5.3.1, 5.3.3; ETSI EN 302 018, art. 5.3.1, 5.3.10; ETSI EN 302 077-2, art. 4.2.1; ETSI EN 302 245-2, art. 4.2.1; ETSI EN 302 296, art. 5.4.2; ETSI EN 302 297, art. 4.2.1	Equipment for radio and TV broadcasting	A, B, D

Ordinal number <sup>1</sup>	Test procedure / method name	Test procedure / method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
113.9*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-8	GSM base stations	A, B, D
113.10*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-9	Wireless microphones and similar radio frequency audio link equipment	A, B, D
113.11*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-11	Terrestrial sound broadcast transmitters	A, B, D
113.12*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-12	VSAT stations operated in the frequency ranges between 4 GHz and 30 GHz	A, B, D
113.13*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-13	Citizens' band radio and ancillary equipment (speech and non-speech)	A, B, D
113.14*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-14	Analogue and digital terrestrial TV broadcasting service transmitters	A, B, D
113.15*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-17	Wideband transmission systems and HIPERLAN equipment	A, B, D
113.16*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-19	Receive only mobile earth stations operating in the 1.5 GHz band providing data communications	A, B, D
113.17*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-20	MES stations used in MSS	A, B, D
113.18*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-33	Ultra wide band communication equipment (UWB)	A, B, D
113.19*	Immunity to conducted disturbances induced by RF fields tests	ETSI EN 301 489-52	Mobile and portable (UE) radio and auxiliary equipment	A, B, D
113.20*	Immunity to conducted disturbances induced by RF fields tests	EN IEC 62052-11; ČSN EN IEC 62052-11	Electrometers	A, B, D
114.1*	Voltage dips, short interruptions and voltage variations immunity tests	EN IEC 61000-4-11; ČSN EN IEC 61000-4-11; EN 61000-4-29; ČSN EN 61000-4-29	Electrical equipment	A, B, D
114.2*	Voltage dips, short interruptions and voltage variations immunity tests	ETSI EN 300 386	Telecommunication network equipment	A, B, D
114.3*	Voltage dips, short interruptions and voltage variations immunity tests	ETSI EN 301 489-1	Radio equipment and services	A, B, D
114.4*	Voltage dips, short interruptions and voltage variations immunity tests	ETSI EN 301 489-3	Short-range devices operating on frequencies between 9 kHz and 40 GHz	A, B, D

135.24	EMC Tests	011-OOP-C005	Road speedometers	A, B, D
135.25	EMC Tests	OIML R 117	Dynamic measuring systems for liquids other than water	A, B, D
135.26	EMC Tests	OIML R 139	Compressed gas fuel systems for vehicles	A, B, D
135.27	EMC Tests	OIML R 134	Automatic scales for weighing vehicles in motion	A, B, D
135.28	EMC Tests	0111-OOP-C043	Luxmeters	A, B, D
135.29	EMC Tests	OIML R 61; OIML R 106; OIML R 50; OIML R 51; OIML R 107	Scales with non-automatic function	A, B, D
135.30	EMC Tests	OIML R 66	Length gauges	A, B, D

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test

**Specification of the scope of accreditation:**

Ordinal test number	Detailed information on activities within the scope of accreditation (subject of testing)
I	Measuring software for scales and add-on modules, water meters, gas meters and calculators, electrical energy meters, heat meters, measuring systems for liquids other than water, dispensers, taximeters, dimensional gauges

**The Appendix is an integral part of  
Certificate of Accreditation No. 677/2023 of 19/12/2023**

**Accredited body according to ČSN EN ISO/IEC 17025:2018:**

**Český metrologický institut**  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

**5. Regional Inspectorate Pardubice**

**Tests:**

Ordinal number <sup>1</sup>	Test procedure/ method name	Test procedure/ method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
1	Determination of water content in solids using Karl-Fischer method by volumetric titration	511-MP-C010 (ČSN ISO 760)	Plastics	A, B, D
2	Determination of water content in solids using Karl-Fischer method by coulometric titration	511-MP-C010 (ČSN ISO 760)	Plastics	A, B, D
3	Tests of the accuracy and precision of measuring instruments under specified conditions	512-MP-A313; OIML R137	Gas meters	A, B, D
4	Tests of the accuracy and precision of measuring instruments under specified conditions	512-MP-C303 (MID MI-002)	Gas meters and gas calculators	A, B, D

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

**Accredited body according to ČSN EN ISO/IEC 17025:2018:**

**Český metrologický institut**  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

**6. Regional Inspectorate Jihlava**

**Test:**

Ordinal number <sup>1</sup>	Test procedure/ method name	Test procedure/ method identification <sup>2</sup>	Subject of the test	Degrees of freedom <sup>3</sup>
1.1	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C301 (OIML R 76; EN 45501)	Scales with non-automatic operation	A, B, D
1.2	Tests of the accuracy and precision of measuring instruments under specified conditions	050-MP-C307 (OIML R 51; OIML R 61; OIML R 134)	Scales with automatic operation	A, B, D

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

Accredited body according to ČSN EN ISO/IEC 17025:2018:

Český metrologický institut  
CAB number 1341, ČMI Testing Laboratory  
Okružní 31, 638 00 Brno

**Explanations:**

BER	- Basic Encoding Rules
CIE	- International Commission on Illumination
CRM	- Certified reference material
DCS	- Digital Cellular Telecommunications System 1800MHz
EIRP	- Effective Isotropically Radiated Power
EMC	- Electromagnetic Compatibility
ETSI	- European Telecommunication Standardisation Institute
FCC	- Federal Communication Commission (USA)
FID	- Flame Ionization Detector
GSM	- Global System for Mobile communications
HIPERLAN	- High Performance Radio Local Area Networks
IES LM	- Professional society for illumination
ISM	- Industrial, scientific, and medical
IR	- Ionising Radiation
LBT	- Listen Before Talk
LPD	- Low Power Device
MES	- Mobile Earth Station
MSS	- Mobile Satellite Service
OIML	- International Organization of Legal Metrology
RI	- Regional Inspectorate
RM	- Reference Material
SCD	- Sulfur chemiluminescence Detector
SW	- Software
TCD	- Thermal Conductivity Detector
TV	- Television
VSAT	- Very Small Aperture Terminal
XXX-MP-CYYY	- internal procedure
XXX-OOP-CYYY	- internal procedure
